INTEROFFICE CORRESPONDENCE

DATE: August 30, 1994

TO: Distribution

FROM: *San* S. A. Marshall, Surface Water, Bldg. T893A, X2325

SUBJECT: MEMORANDUM OF UNDERSTANDING FOR EPM WORK ORDER SUPPORT IN THE
BUFFER ZONE - SAM-142-94

A draft copy of the Memorandum of Understanding (MOU) for Environmental Protection Management (EPM) Work Order Support in the Buffer Zone is attached. The MOU will be among the Environmental Operations Management (EOM), Waste Storage and Disposal (WS&D), and EPM organizations.

There have been several meetings over the past months on the subject of work order support in the Buffer Zone for the EPM organization. During these meetings, specific areas of support have been discussed and agreements made. These agreed to areas of responsibility have been included in the MOU.

I think the MOU is now nearly complete. If all parties will provide their comments on the draft document quickly, I will pursue issuing the final version soon. Please redline the document and fax changes to me on fax extension 8482.
